

Enable Ezidoesit in Outlook

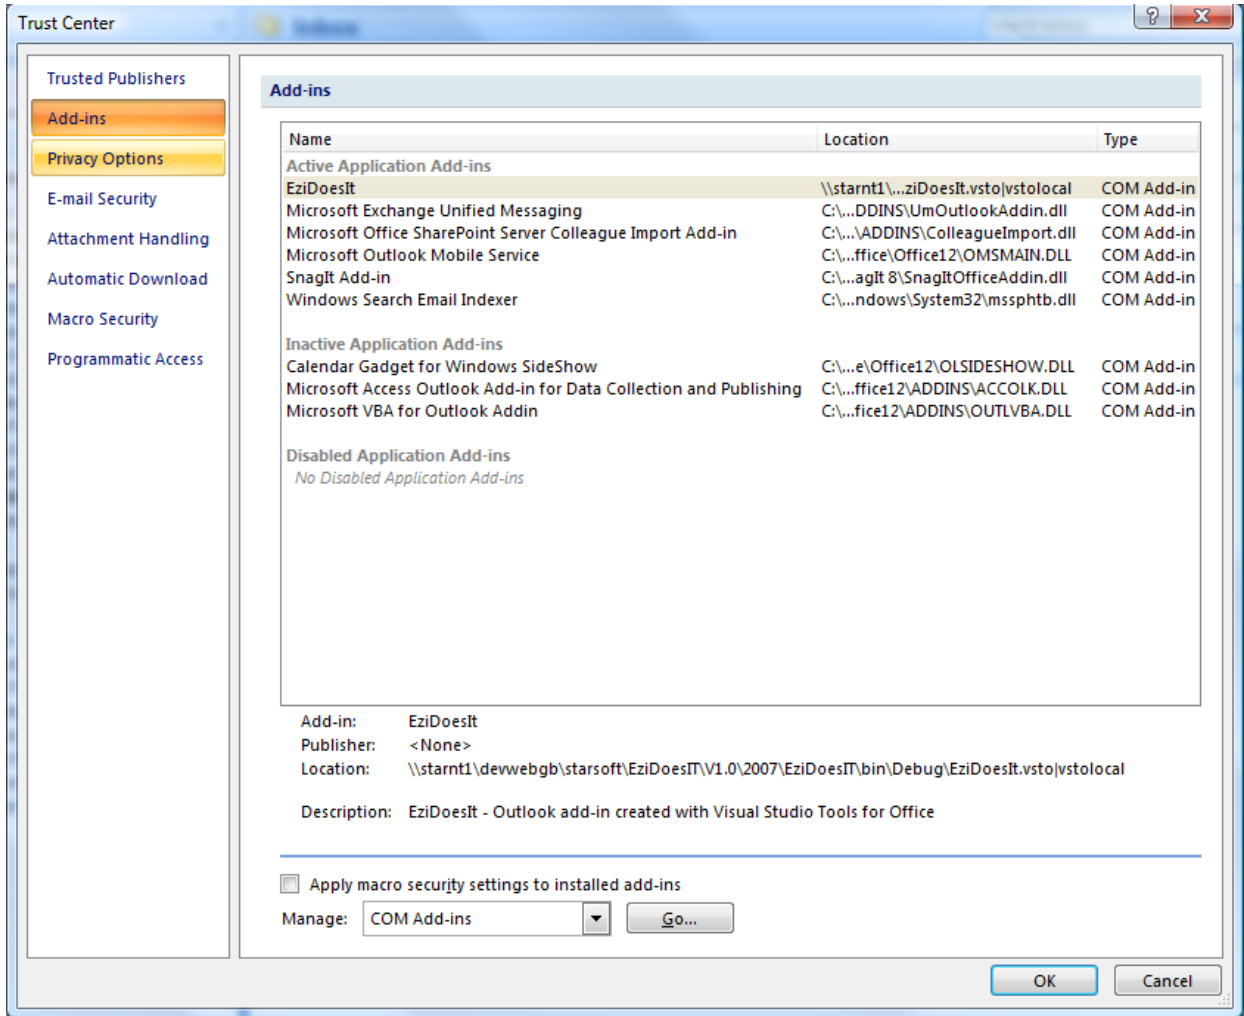

Sometimes depending on unknown circumstances after installing Ezidoesit you do not see the Ezidoesit toolbar in Outlook. To enable Ezidoesit follow the steps below. The process is different for Outlook 2003 and 2007.

Outlook 2007

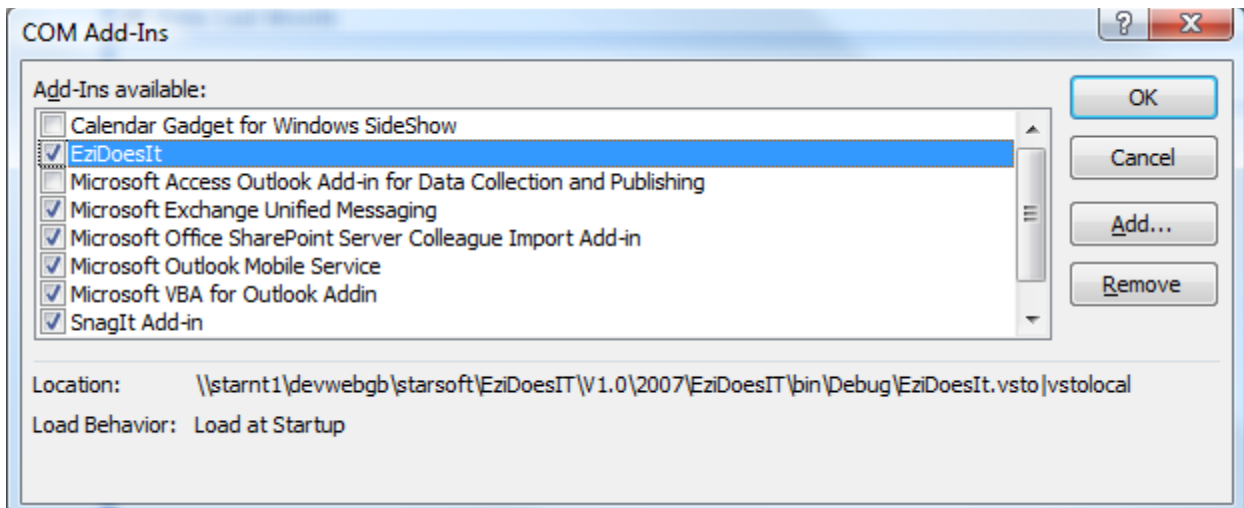

Select Trust Center from the Tools menu

Select Add-ins from the list on the left – This shows a list of all the installed add-ins
 At the bottom of the screen is a dropdown – select Com Add-ins and click Go

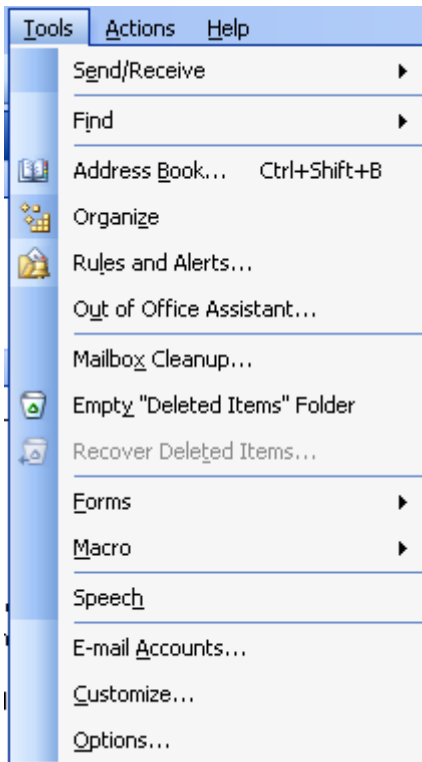

In this screen you can select which Add-ins are loaded or not loaded by checking the boxes in the list.

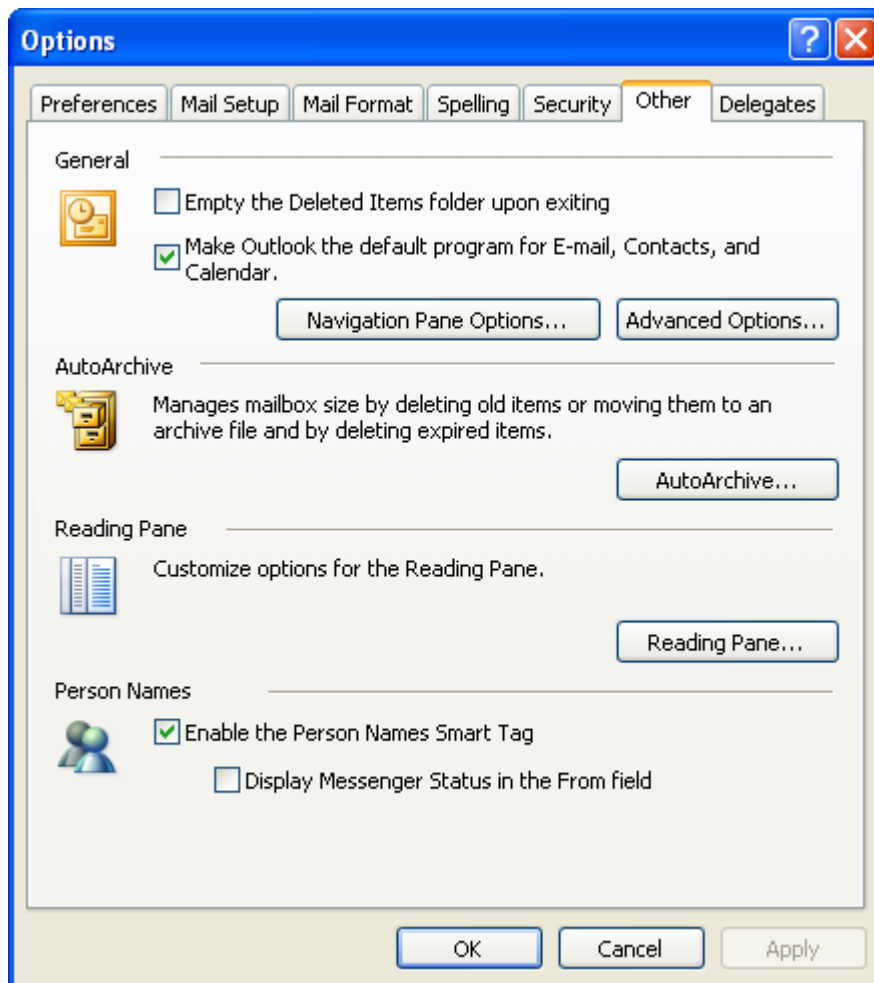

Outlook 2003

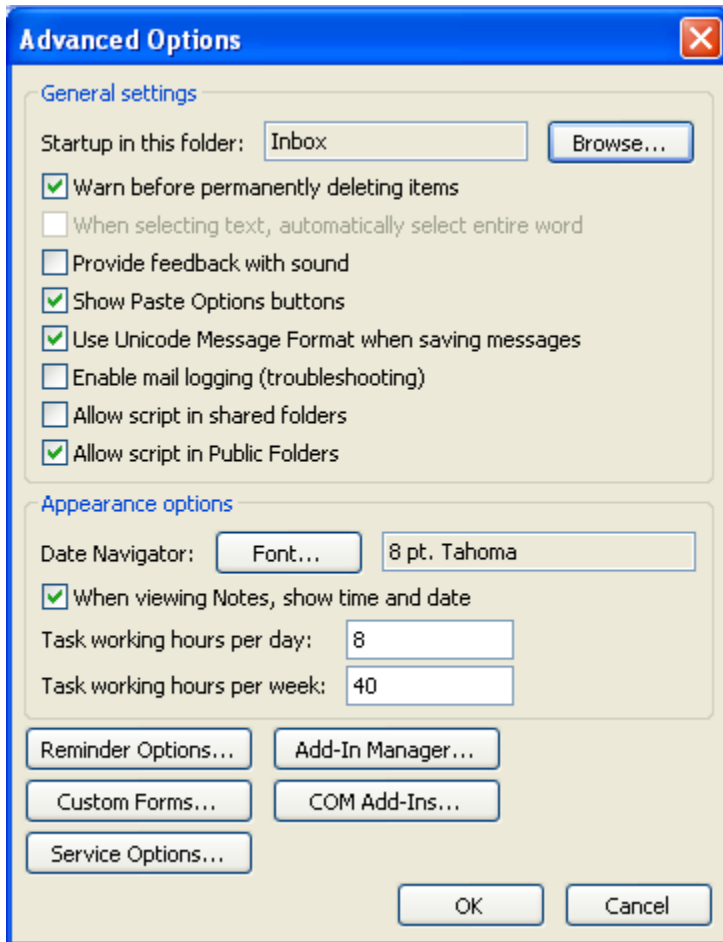

Select Options from the Tools Menu

Select the "Other" tab and click on the Advanced options button

Now click on the COM Add-Ins button at the bottom of the screen

Enable and disable Add-ins by check the boxes in the list of Add-ins
